EDUCATION

Haliç University | Istanbul | *B.Sc. Software Engineering* **| Expected: June 2026 AI & Tech Academy (Google & T3 Foundation) |** *Data Science Fellow* **| 2024 – 2025**

- **Selected for a 9-month intensive bootcamp focused on Python, SQL, Machine Learning, and Data Analysis.**

TECHNICAL SKILLS

- **Languages & Frameworks: Python, Dart (Flutter), C# (.NET), SQL, FastAPI.**

- **Data & AI: Pandas, Scikit-learn, Machine Learning, Data Analysis.**

- **Tools: Git, MS SQL Server, VS Code.**

- **Languages: Turkish (Native), English (B2/C1 - Professional).**

PROFESSIONAL EXPERIENCE

Huawei Student Developers (HSD) | *Core Team Member* **| Nov 2025 – Present**

- **Managing community operations and planning technical events, workshops, and hackathons for university students.**

Rubikpara | *Fintech Intern (Flutter)* **| July 2025 – Aug 2025**

- **Developed mobile payment interfaces using Flutter and implemented UX improvements for financial applications.**

Payolog (USA - Remote) | *Software Intern (Flutter)* **| Sept 2024 – Nov 2024**

- **Collaborated with a global team to build responsive mobile UI and integrated backend services using Flutter.**

- **Gained experience in remote work discipline and cross-border software development.**

Bilsoft Software | *Software Intern (.NET)* **| July 2024 – Sept 2024**

- **Supported ERP module development using C# / .NET and managed database reporting with MS SQL Server.**

PROJECTS

BioDietix (Senior Project) | *Python, Machine Learning*

- **Built an AI-driven nutrition system using Random Forest to analyze blood values and recommend personalized diet plans.**

Intelligent Data Analysis System (ACP) | *FastAPI, Machine Learning*

- **Developed a RESTful API to analyze real-world datasets. Implemented CRUD operations, data validation, and ML integration.**
