PROFESSIONAL SUMMARY

Software Engineering student graduating in January 2027, building Android, Android TV and cross-platform mobile applications with Kotlin/Jetpack Compose and Flutter/Dart. Hands-on experience with REST APIs, Firebase, offline persistence, media playback, testing and Google Play release workflows.

TECHNICAL SKILLS

Mobile: Kotlin, Jetpack Compose, Android SDK, Flutter, Dart, Material 3, Android TV, responsive/adaptive UI Architecture & state: MVVM, Repository Pattern, BLoC/Cubit, Hilt, Coroutines, Clean Architecture fundamentals Data & APIs: REST, FastAPI, Retrofit, OkHttp, Firebase Auth, Google Sign-In, App Check, Firestore, Storage, Room, DataStore, Hive

Media & delivery: Media3/ExoPlayer, LibVLC, WorkManager, XMLTV, M3U/Xtream, Gradle, Git/GitHub, Google Play Console, unit testing, lint, CI/CD

Additional: Python, C#, .NET, SQL, Microsoft SQL Server, Linux, Android Studio, VS Code

SELECTED PROJECTS

IdealPlayer | Kotlin, Jetpack Compose, Android TV, Room, Hilt, Media3 | [GitHub](#)

- Built an Android mobile/TV player for user-provided M3U/M3U8 and Xtream sources with XMLTV EPG, live/VOD/series browsing, search, favorites, history, continue watching and Picture-in-Picture.
- Applied MVVM/repository layers with Room, DataStore, Retrofit/OkHttp and WorkManager; implemented Media3/LibVLC fallback, TV D-pad navigation, secure parental PIN, diagnostics and Play/self-hosted releases.

BioDietix | Flutter, Dart, FastAPI, Firebase, Hive, Python | [GitHub](#)

- Developed a bilingual nutrition-support app that parses supported blood-test/allergy PDFs and evaluates barcode-scanned products using profile, allergy, BMI and nutrition-label signals.
- Integrated Firebase Auth/Google Sign-In, App Check/Play Integrity, authenticated FastAPI endpoints, Open Food Facts, Hive and Firestore/Storage; added tests, dev/prod flavors and closed-testing workflows.

Additional Flutter apps: [Expense Tracker](#) (Hive, dashboard analytics) | [Recipe App](#) (search, filtering, favorites) | [E-Commerce UI](#) (product catalog, favorites, cart and validated forms)

EXPERIENCE & COMMUNITY

Flutter Developer Intern | Rubikpara | Jul 2025 - Aug 2025

- Built Flutter interfaces, integrated REST APIs and application data flows, resolved defects and improved fintech form flows, reusable components, performance and UI quality.

Core Team Member | Huawei Student Developers Türkiye | Nov 2025 - Present - Developer events, technical sessions and community projects.

AI & Data Analytics Trainee | Artificial Intelligence and Technology Academy (Google Supported) | Dec 2024 - Nov 2025 - SQL, data analysis, machine-learning fundamentals and final project.

Software Internships | Social Office, Payolog, Bilsoft Software | Jul 2024 - Jun 2025 - Python, C#/.NET, SQL Server, UI development, debugging and version control.

EDUCATION & CERTIFICATIONS

Haliç University - B.Sc. in Software Engineering | 2021 - Expected Jan 2027

Selected certifications: MasterFabric Mobile Developer Training (Jun 2026, MFA-MD-2026-0011); Flutter Application Development - Android & iOS (Udemy, 2026); Google Advanced Data Analytics (Coursera)

Languages: Turkish, English
